Siena is a hybrid acoustic panel, combining a high performance acoustic core with calibrated MLS diffuser. Hybrid panels decrease reverberation time whilst also improving sound field distribution, the perfect combination for wall-to-wall solutions to decrease reverberation time and improve speech intelligibility.

Siena is made from select sustainable wood and a recycled PET core (Class 1 product according to the OEKO-TEX@ Standard 100).

It is available in 4 wood finishes and 4 lacquered finishes.

The panelling range has a simple discreet installation system that allows for quick mounting and easy maintenance.
